**Source:** U.S. Census Bureau, 2013-2017 American Community Survey 5-Year Estimates

On March 5, 2016, the Neighborhood Health Survey was conducted in the Bond neighborhood. People who responded to the survey were 18 years of age or older and a resident of the neighborhood. To ensure we reached our target population, this survey was administered door to door. The survey consisted of 94 questions related to various health concerns.

This document highlights the survey results. A total of **51** surveys were collected from the neighborhood. Most (60.8%) of the respondents were female. Majority (91.8%) of the respondents lived in the neighborhood for at least a year.

### LENGTH OF TIME IN THE NEIGHBORHOOD

- Less than a year
- 1-5 years
- 6-10 years
- 11-15 years
- Greater than 15 years

### RESPONDENTS DEMOGRAPHICS
